MADE TO MEASURE

Need a special size? We offer a custom made to measure service on our clothing
(Ask your account manager for more information)

INNOVATION AND DEVELOPMENT

In order to achieve the standard that everyone has grown to trust, we always have, and always will be, creating new products and unique features to further improve the warmth and comfort of our collections.

ENHANCING COMFORT

Looking for maximum comfort? Here's some more features that help warmth, comfort and breathability

Vivo is the concept where a series of tiny apertures are set within the insulation to enhance the breathability without losing thermal performance. The Vivo concept increases the breathability of the insulation by over 30%.

BREATH EASY

BreathEasy Panelling on the inside back of the jacket regulates air flow and temperature in high perspiration areas, keeping the wearer more comfortable.

VOICE PICK
COMPATIBLE

Voice pick pocket & loops inside the jacket provide a solution that is up-to-date with the latest picking systems. The aperture on the collar also provides an opening for the headset that won't let cold air in.

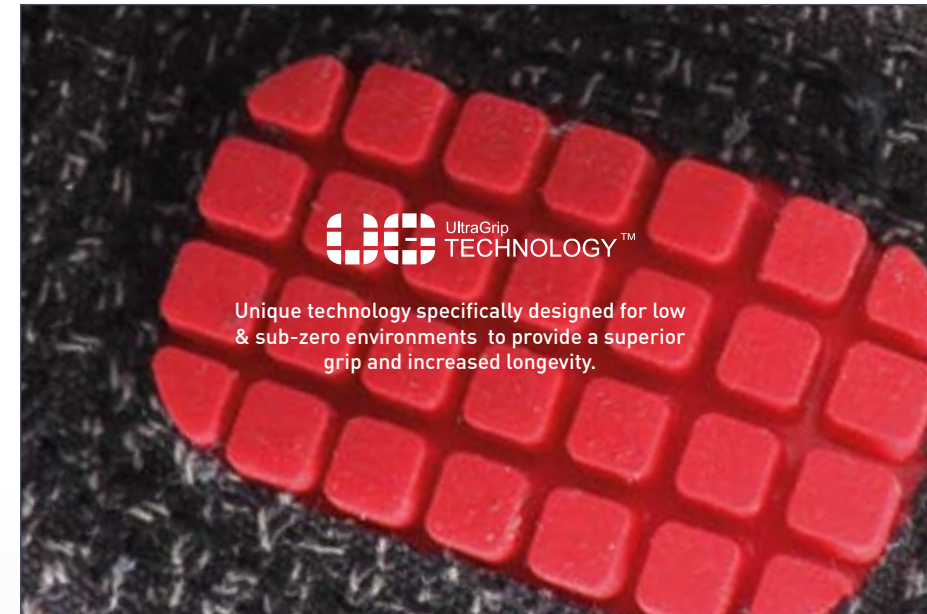

ice diamond

With our Ice Diamond boots, the removable liners can be easily swapped between shifts to keep your feet dry, comfortable and healthy.

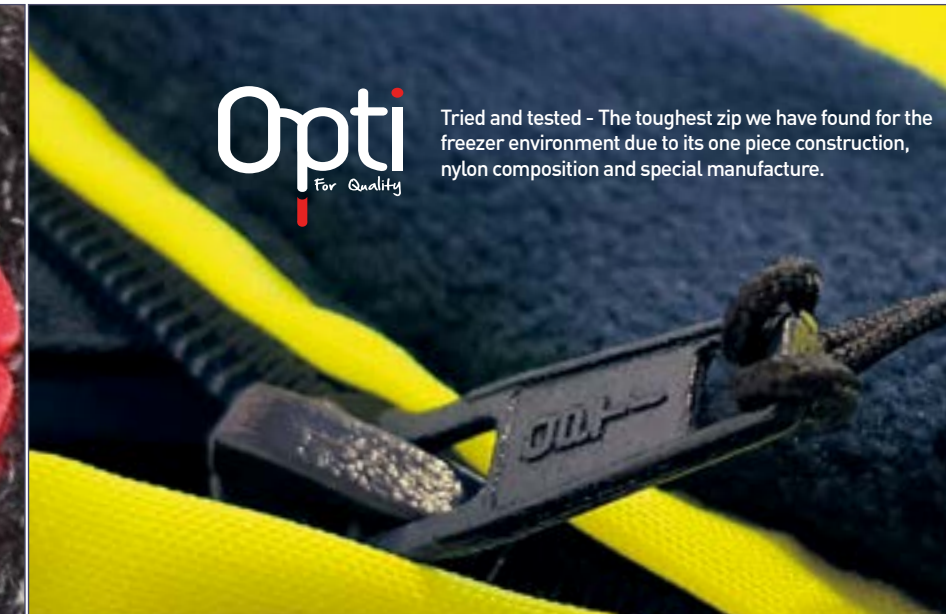

LASTING THE TEST OF TIME

Features to look out for that increase the lifespan of your workwear

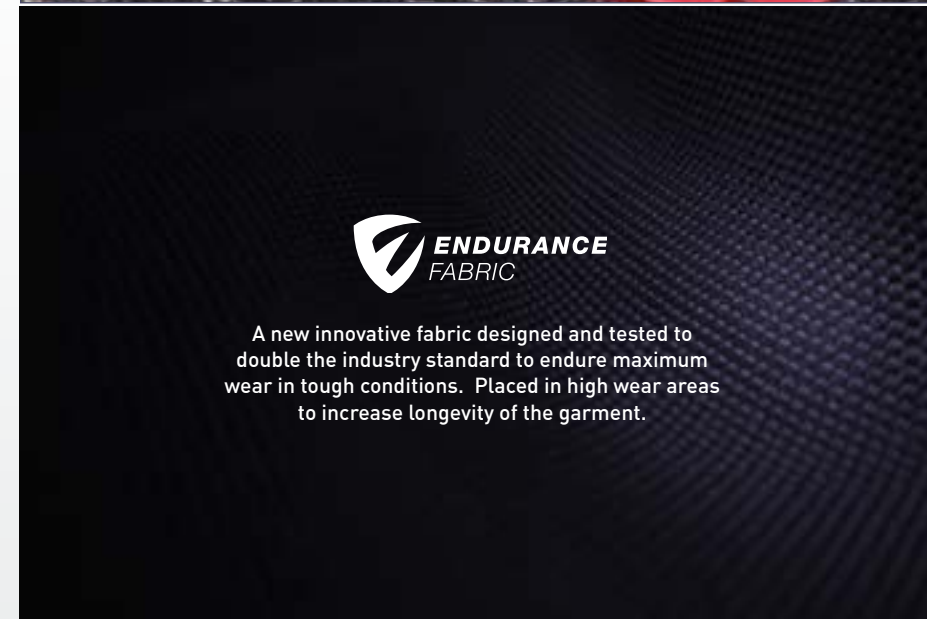

UltraGrip
TECHNOLOGY™

Unique technology specifically designed for low & sub-zero environments to provide a superior grip and increased longevity.

Opti
For Quality

Tried and tested - The toughest zip we have found for the freezer environment due to its one piece construction, nylon composition and special manufacture.

ENDURANCE
FABRIC

A new innovative fabric designed and tested to double the industry standard to endure maximum wear in tough conditions. Placed in high wear areas to increase longevity of the garment.

HTTY3
PERFORMANCE FABRIC

High Tenacity Twisted Yarn Rip-stop fabric for improved durability, flexibility and colourfast.

FINDING YOUR FREEZER CLOTHING **BULKY** OR **HARD TO MOVE AROUND IN?**

We understand that working in a coldstore is a tough job...
that's why we design our jackets to be as flexible as possible

Introducing...

FLEXEASY

4-way stretch fabric panel
around the **entire sleeve.**

This joins the sleeve and body, which provides
greater flexibility and easy movement of arms

EXTRA
STRETCH
100MM

Clo[®]
Insulation

All the 2018 collections are rated
to Class 1 breathability!*

IT'S IMPORTANT TO CREATE THE PERFECT BALANCE OF
WARMTH & BREATHABILITY FOR MAXIMUM COMFORT

**Lack of breathability in insulated jackets can lead
to a number of problems**

- Damp clothes from sweat
- Feeling cold from the damp causing discomfort
- Reduced work morale
- Clothes are not as 'fresh'

**In partnership with Clo Insulation[®]
we have developed a unique solution
to overcome these issues:**

If a garment uses Clo Insulation[®] it will be highly breathable, this
means perspiration is wicked away from your body quickly keeping
you warm, comfortable and able to work in safety.

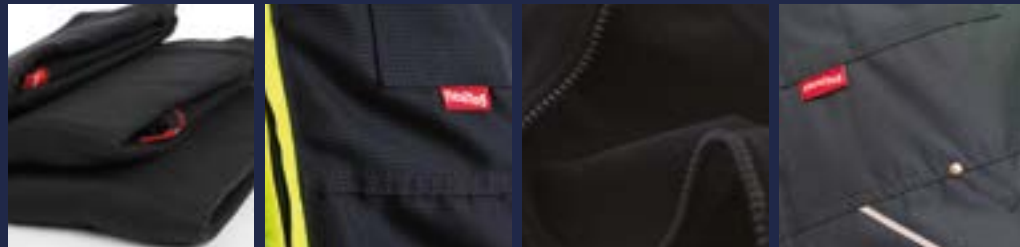

*As stated in the EN342 tests

**What do
we mean by
breathability?**

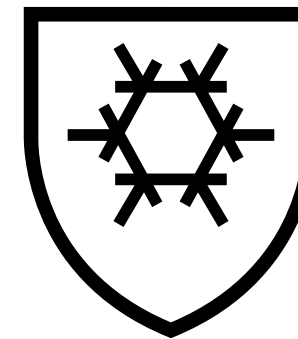

Breathability is the amount
of airflow that can transfer
through the jacket's
lining, insulation and
outer fabrics

FlexEasy is a unique PATENTED Innovation,
designed and perfected by FlexiTog.
Remember, if it's not FlexiTog,
It's **NOT** FlexEasy!

WORKWEAR CLOTHING

A comprehensive collection of warm, comfortable clothing designed to protect you whether you are working in cold or sub-zero temperatures.

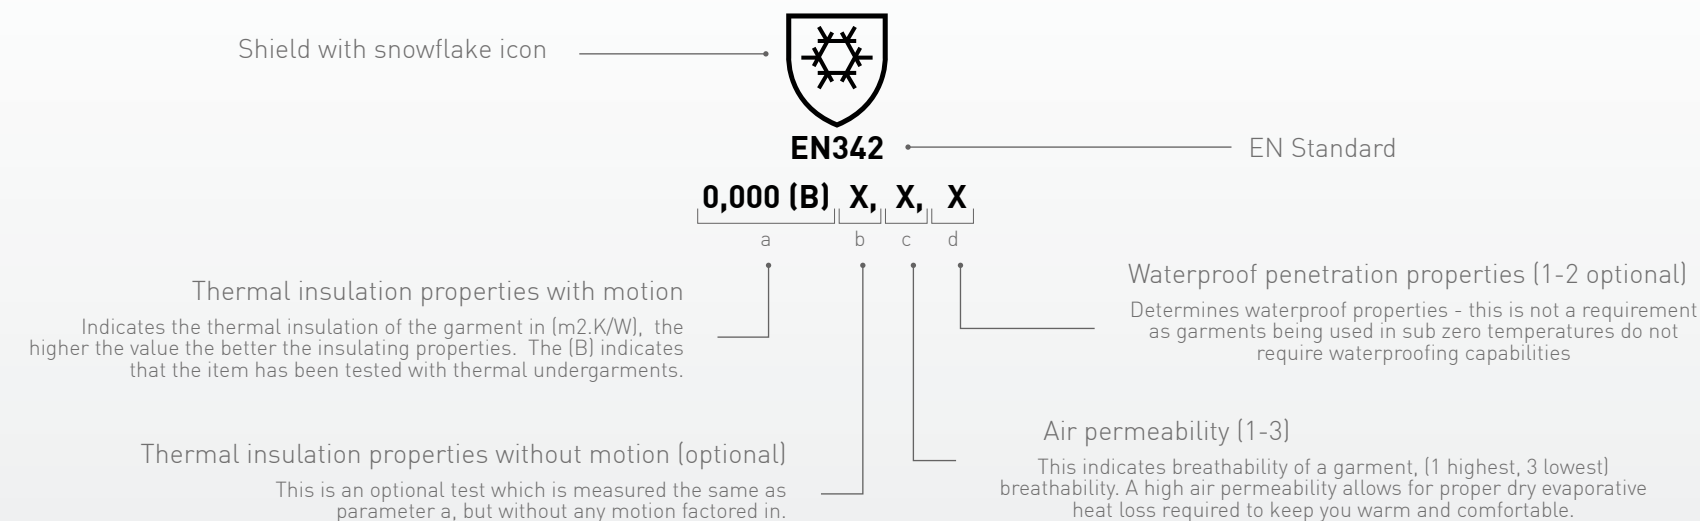

EN342

Ensembles and garments for protection against cold

HOW IS OUR COLDSTORE CLOTHING CERTIFIED?

EN 342:2017 is the standard related to clothing designed for protection in cold environments ranging from chill (-5°C) through to cold store (-25°C) to deep freeze (-40°C). The EN 342 standard is determined by four parameters (a,b,c,d) all detailed below: The standard does not contain any specific requirements for head, hand or foot protection.

THERMAL BASELAYERS

A vital part of the layering system for protection in cold and sub-zero temperatures

SHORT SLEEVE THERMAL VEST

An essential thermal crew-neck short sleeve vest for keeping you warm.

A very comfortable general purpose fleece

SIZES: XS - 5XL | SKU: SF1

Packed with features for wearer comfort and functionality.

Additional Information
Available in Black or Navy • Zip pockets • Full zip collar • Soft feel fleece

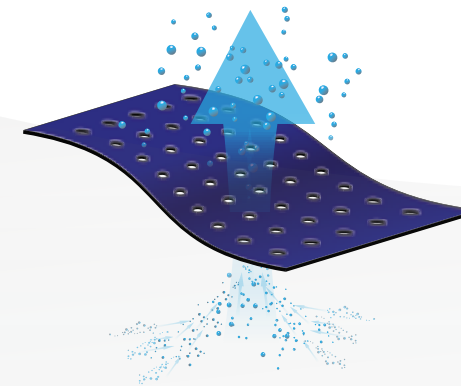

SUPER LIGHTWEIGHT, ULTRA-FLEXIBLE, THERMAL WORKWEAR JACKETS

FLEXAIR COLLECTION

A market leading jacket collection for use in chilled temperatures or during the colder winter months.

THE VIVO FLEECE CONCEPT

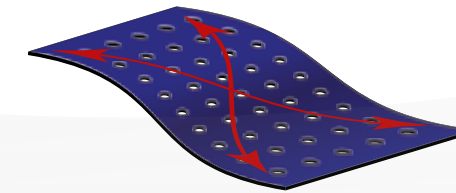

Vivo is a brand of insulation and fleece products with small holes in. Here is why we use Vivo fleece in our FlexAir jackets.

BREATHABILITY

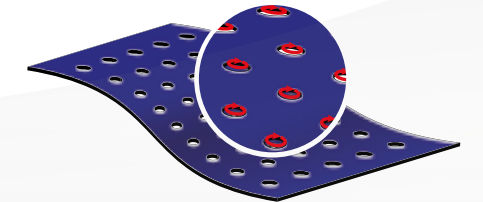

The holes in the Vivo fleece mean that moisture is wicked away far quicker than any other fleece on the market, keeping you extremely comfortable. This fleece is **40% more breathable** than standard fleece.

This is important when working in cold temperatures as body moisture cools quickly leaving you uncomfortable so needs to be transported away from the body quickly

4-WAY STRETCH

The Vivo concept also provides extra 4-way stretch to the fleece, contributing to the superior flexibility of the FlexAir collection.

TRAPS WARM AIR

The holes are the optimum size to not only increase breathability, but also to trap warm air, helping to maintain a consistent body temperature.

NEW!

FLEXAIR JACKET

Super flexible & lightweight jacket, designed for use in cool temperatures

Super-stretch hi viz fabric
This specialist fabric on the arms and upper back provides maximum freedom of movement

Opti
For Quality
Durable coil zipper, rated to BS3084

REACH EASY
TM
Side panel design that prevents the jacket from riding up when stretching. This is excellent when working in a picking job role.

Vivo
Vivo Fleece
Vivo Fleece to increase breathability and flexibility

Lightweight fabric
Increases comfort and reduces fatigue

SIZES: XS - 6XL | SKU: X11J

The FlexAir jacket is an extremely lightweight, flexible and breathable thermal jacket. The Vivo fleece lining has small holes that are the optimum size to transport moisture away from the body whilst retaining warmth. The holes at the same time provide excellent four-way stretch. The Super-stretch fabric on the arms and shoulders provides maximum flexibility and is constructed in dual layers to trap warm air.

Additional Information

High fleece collar with outer fabric provides comfort and warmth around the neck • Glove cuffs • Internal zipped pocket • Ergonomic curved design on the bottom of the jacket

NEW!

FLEXAIR AQUA JACKET

A lightweight and flexible jacket with a waterproof front, designed for those working in the seafood industry

Super-stretch hi viz fabric
This specialist fabric on the arms and upper back provides maximum freedom of movement

Opti
For Quality
Durable coil zipper, rated to BS3084

REACH EASY
TM
Side panel design that prevents the jacket from riding up when stretching. This is excellent when working in a picking job role.

Stain resistant front fabric
The stain resistant fabric is also highly defensive against odour that is left on the garment after handling seafood

Vivo Fleece
Vivo Fleece to increase breathability and flexibility

Waterproof front fabric
Designed for use in areas where seafood and wet produce is handled

SIZES: XS - 6XL | SKU: X11SJ

The FlexAir Aqua jacket is an extremely lightweight, flexible thermal jacket with a waterproof front designed for handling wet produce, such as fresh fish. The internal Vivo fleece lining has small holes that are the optimum size to transport moisture away from the body whilst retaining warmth. The holes at the same time provide excellent four-way stretch. The Super-stretch fabric on the arms and shoulders provides maximum flexibility and is constructed in dual layers to trap warm air.

Additional Information

High fleece collar with outer fabric provides comfort and warmth around the neck • Glove cuffs • Internal zipped pocket • Ergonomic curved design on the bottom of the jacket

SUPER LIGHTWEIGHT, ULTRA-STRONG WORKWEAR GARMENTS

X120 COLLECTION

Suitable for use in:
Warehouses, Ambient temperatures, Chillers,
Freezers and Sub-Zero Environments.

CHILLWEAR FLEECE X12F

NOW tested to EN14058! A high quality certified fleece jacket which is very warm and comfortable

SIZES: XS - 5XL | SKU: X12F

A lined fleece is great for those that work outside in the colder months, whilst maintaining a smart corporate appearance. This unique jacket, through the specialist fabric used, maintains it's structure in whatever occupation the wearer is in.

Additional Information
Lined sleeves to stop them riding up • YKK Coil Zipper

Chillers, Freezers and
Sub-Zero Environments.

Tested down to
-84°C

THE CLASSIC COLLECTION

The TRUSTED standard for certified clothing in over a thousand coldstores across the UK & Europe

CLASSIC COLDSTORE JACKET

Our bestselling coldstore jacket featuring advanced insulation and unique features all designed for a greater degree of comfort

FLEXEASY

4-way stretch fabric panel joining sleeve and body, designed to offer greater flexibility and easy movement of arms.

High Fleece Collar

Providing more comfort than a standard collar. This also enables the wearer more freedom of movement for their head, in turn reducing stress and fatigue.

Clo
Insulation

Clo Insulation provides great comfort & warmth whilst being lightweight and non-bulky

Large Front Pockets

The large pockets on the front of our jackets have never been bigger! Great for storing gloves when not wearing, as well as other valuables

EU COMPLIANT PPE SAFETY WEAR

EN342
0,628 (B) X,1,X

SIZES: XS - 6XL | SKU: X28J

Not just your standard freezer jacket. Ergonomically designed, manufactured from HTY2 Fabric & Clo Insulation Univa, this is a world apart from our previous jackets. The patented FlexEasy sleeve design helps reduce wearer fatigue in the most demanding roles, coupled with the lightweight fleece collar for maximum comfort.

Additional Information

Arm pockets • Inner & Outer pockets • Designed to EN342 Specifications • Chin Guard stops the zip pulling against bare skin

CLASSIC COLDSTORE SALOPETTES

Flexible, warm and designed for cold environments, works perfectly with our new Classic Coldstore Jacket X28J

Clo[®] Insulation

Clo Insulation provides great comfort and warmth whilst being lightweight and non-bulky

High Front & Back
A high front & back Salopette designed to provide extra protection to vital body organs.

Pre-Curved Leg Design
Pre-curved legs provide the wearer with a more comfortable experience.

Seam Protection
Protecting areas of high wear is essential so we have covered the outside seam with Hi-Viz fabric for extra protection

EU COMPLIANT PPE SAFETY WEAR

EN342
0,628 (B) X,1,X

SIZES: XS - 6XL | SKU: X28S

Being comfortable whilst working in an active job role in cold conditions is imperative. Thats why in our Classic Coldstore Salopette, we use performance insulation from Clo Insulation. Teknica provides great warmth, but without the bulkiness of general thermal insulation.

Additional Information

Long leg zips placed on the inside of the legs help dressing and undressing with boots • Deep front pockets great for storing pens, pencils etc!
• Updated design straps mean a more comfortable solution to the standard buckle. • Bright yellow fabric the length of the leg provides great visibility, especially beneficial when working in low light conditions

CLASSIC COLDSTORE MANAGER'S JACKET

Extra long coldstore jacket, perfect for short visits to the coldstore to save wearing freezer trousers

FLEXEASY

4-way stretch fabric panel joining sleeve and body, designed to offer greater flexibility and easy movement of arms.

High Fleece Collar
Providing more comfort than a standard collar. This also enables the wearer more freedom of head movement, in turn reducing stress and fatigue.

Clo[®] Insulation

Clo Insulation provides great comfort & warmth whilst being lightweight and non-bulky

Extra long body
Great protection for lower back and upper legs.

SIZES: XS - 4XL | SKU: X28W

Extra long coldstore jacket for added protection for the lower body and upper legs. Made to the highest specifications with all our trademark technology. A great & flexible garment that is ideal for those who work in cold areas for short periods of time

Additional Information

Anti rot thread - protection from wear in extreme conditions • Built in Hi-Viz for increased safety and visibility

CLASSIC COLDSTORE COVERALL

For those that prefer an all-in-one solution, the new coverall provides great flexibility & movement for even better comfort in cold environments

FLEXEASY

4-way stretch fabric panel joining sleeve and body, designed to offer greater flexibility with easy movement of arms.

High Fleece Collar

Providing more comfort than a standard collar. This also enables the wearer more freedom of movement for their head, in turn reducing stress and fatigue.

Clo[®]
Insulation

Clo Insulation provides great comfort, and warmth whilst being lightweight and non-bulky

Pre-Curved Leg Design

Pre-curved legs provide the wearer with a more comfortable experience. When walking and bending a lot, the more comfortable a user can be, the better!

Seam Protection

Protecting areas of high wear is essential so we have covered the outside seam with Hi-Viz fabric for extra protection

SIZES: XS - 4XL | SKU: X28C

The perfect all-in-one garment for cold environments. Flexible, warm , durable and very comfortable. Packed with features and manufactured to our usual high standards, an all-round flexible garment for harsh environments.

Additional Information

Anti rot thread - protection from wear in extreme conditions • Built in Hi-Viz for increased safety and visibility

ENDURANCE

This coldstore clothing collection uses the very latest innovations to enhance comfort, warmth and durability. This is the flagship in the FlexiTog range

Lightweight and flexible - designed for pickers and workers who are constantly on the move

ENDURANCE ACTIVE JACKET

Created for workers who are constantly on the move...
this jacket is designed to keep the body at an optimum temperature, even when highly active.

A patented product from Clo Insulation placed in high sweat areas maximising the breathability of the garment by using advanced new technology.

EN342
0,518 (B) X,1,X

BREATHEASY

An area centre back of the jacket to regulate air flow and temperature, keeping the wearer more comfortable.

Voice pick pocket & loops inside the jacket provide a solution that is up-to-date with the latest voice pick systems. The aperture on the collar also provides an opening for the headset that wont let cold air in.

Chest pocket with flap
Provides an excellent area for company embroidered logo's

ENDURANCE FABRIC

A new innovative fabric designed for maximum strength and wear placed in high wear areas such as the arms and front of the jacket to increase longevity of the garment

SIZES: XS - 6XL | SKU: X28B

The Endurance Active jacket...Providing people working in sub-zero high activity job roles with a perfect solution. Lightweight, breathable & highly durable along with a NEW integrated Voice Pick feature, this jacket is a pleasure to work in. Incorporating Clo Insulation Vivo technology, the Endurance Active Jacket keeps the wearer at an optimum temperature, even when highly active which is imperative for keeping comfortable.

Additional Information

Rated to Class 1 breathability • Arm pockets on both arms with 3 sections ideal to keep pens/pencils • High fleece neck collar provides great comfort and reduces weight around neck • Glove cuffs provide comfort to the wrist and stops the risk of cold air getting to the arm • Elasticated waist stops cold air from entering the jacket • Zip puller for easy dressing/undressing with gloves • Chin guard to protect skin & hair from zip • Wide & deep pockets, ideal for storing gloves

3 QUICK FACTS

TO HELP YOU DECIDE IF THIS JACKET WILL SUIT YOUR NEEDS

Weighs 38% less than a traditional freezer jacket*
30% more breathable with vivo insulation

Perfect for an ACTIVE job role

Durability

Endurance fabric on high wear areas making jackets last longer. Strength tested to double the industry standard

Integrated voice pick solution

Keeps equipment protected, comfortable to wear without letting cold air into the jacket

*Based on an X33J jacket

ENDURANCE ACTIVE TROUSERS

A lightweight, breathable and very comfortable trouser designed for active workers

Low waist
Through customer feedback, we have brought the height of the waist lower to increase comfort when wearing a jacket. Great benefit for warehouse pickers!

EN342
0,518 (B) X,1,X

 **ENDURANCE FABRIC**
A new innovative fabric designed for maximum strength and wear placed at the bottom of the legs to increase longevity of the garment

Clo[®]
Insulation

Clo Insulation provides great comfort & warmth whilst being lightweight and non-bulky

Seam Protection
Protecting areas of high wear is essential so we have covered the outside seam with Hi-Viz fabric for extra protection

3 QUICK FACTS

TO HELP YOU DECIDE IF THIS JACKET WILL SUIT YOUR NEEDS

1

Light weight Performance Insulation

Users find it hard to believe this lightweight jacket is as warm as jackets that weigh much more!

2

Durability - it lasts longer!

Our jackets have “Endurance fabric” on high wear areas which is strength tested to double the industry standard. **The result:** a stronger, tougher and harder wearing jacket that will last longer.

3

Flexibility = Comfort

FlexEasy makes the jackets more comfortable by providing extra flexibility when bending and stretching allowing you to move more freely.

ENDURANCE DRIVE SALOPETTE

For the highest level of warmth and comfort, to accompany the Endurance Drive jacket

Clo Insulation Univa provides great comfort & warmth whilst being lightweight and non-bulky

EN342
0,593 (B) X,1,X

NEW Leg length adjustment

Need longer legs? With our new unique feature, you can now adjust the leg length to your desire - no need to make a special sized garment!

SIZES: XS -6XL | SKU:X29S

High Front

A high front Salopette is designed for people that have a less active role in freezing conditions to provide extra protection to the body.

A new innovative fabric designed for maximum strength and wear placed at the bottom of the legs to increase longevity of the garment

Seam Protection

Protecting areas of high wear is essential so we have covered the outside seam with Hi-Viz fabric for extra protection

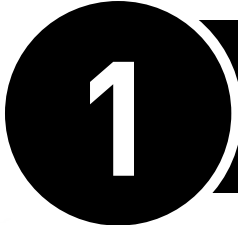

Additional Information

Knee Pad pockets used in combination with our XK1 Knee Pads • Zip puller to help with ease of dressing with gloves • Deep front pockets great for storing pens, pencils etc!

The Endurance Drive Salopette is a Salopette with a difference. Designed with FLT drivers in mind, this offers maximum protection from the cold, utilizing Clo Insulation Univa and high back and front.

3 QUICK FACTS

TO HELP YOU DECIDE IF THESE SALOPETTES WILL SUIT YOUR NEEDS

Performance Insulation

Users find it hard to believe these lightweight salopettes are just as warm as salopettes that weigh more!

Need extra warmth?

The high front provides an extra layer underneath your jacket, ideal for lower activity job roles like forklift driving

Can't get the right length trouser legs?

Our solution... Adjustable leg cuff with 3 possible length settings. Quick & easy to adjust, using a simple popper system to set the length that suits you.

GLOVES

A comprehensive range of durable and warm workwear gloves suitable for low and sub-zero temperatures.

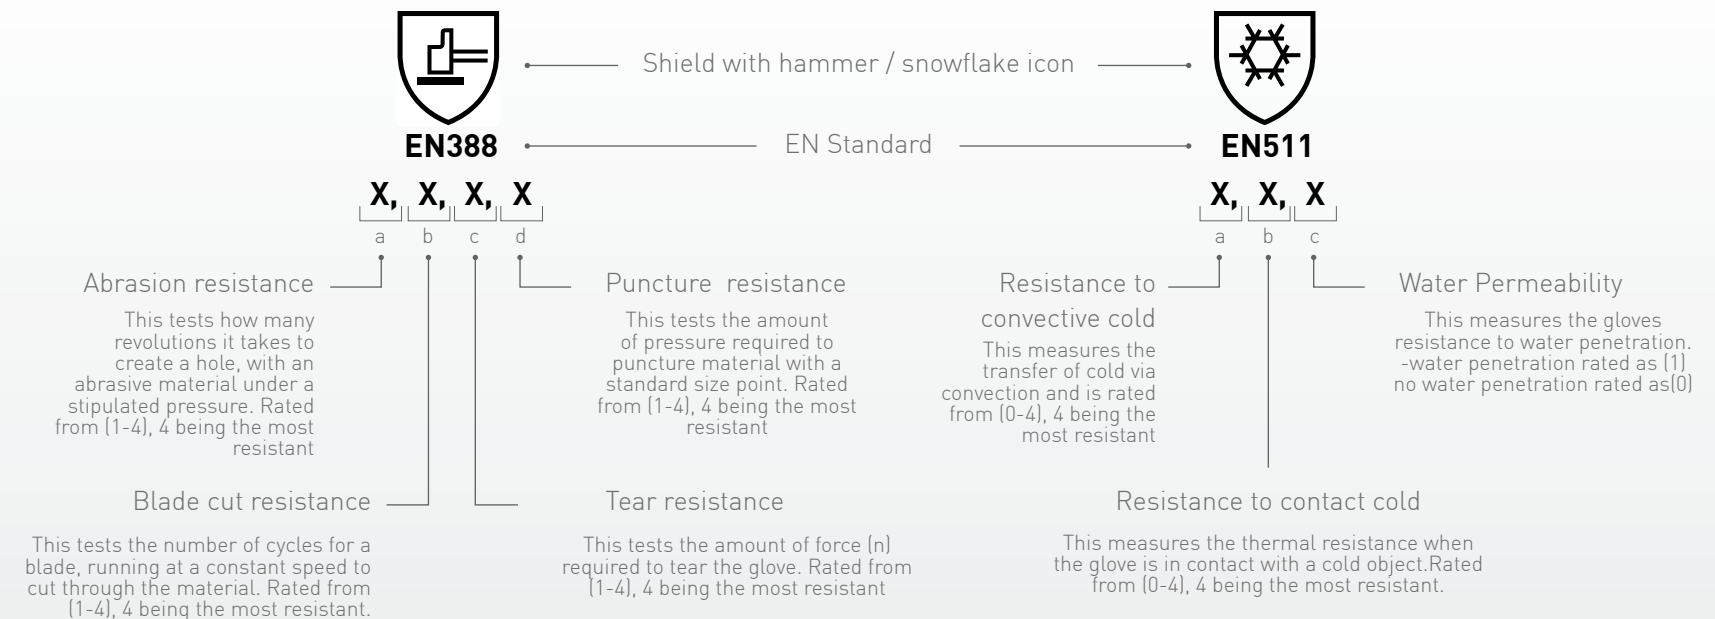

EN388 & EN511

Protection Against Mechanical Risks & Cold Environments

GLOVE CERTIFICATION EXPLAINED.

EN 388 is the standard related to protection levels for safety gloves. This test assess the levels for abrasion, blade cuts, tears and punctures. The EN 511 standard is focused at protecting hands against cold and is based on thermal resistance to convective and contact cold and an optional test for water permeability (waterproofing).

LINER GLOVES

Quality warm & comfortable gloves to give you that extra layer of protection when you need it most!

CERTIFIED LINER 440

A certified liner glove providing added comfort and protection from the cold.

One piece construction
No seams for added comfort

Heavy duty yarn
Thin construction with increased insulation values and durability

Stretch fit
Fits snug to the skin for increased warmth and comfort

Elasticated wrist
Better fit and comfort with no cold draughts

EU COMPLIANT PPE SAFETY WEAR

SIZES: L | SKU: FG440

The perfect liner glove that gives added protection when working in extreme or cold environments. Certified for warmth and abrasion resistance.

Additional Information

Wrist Binding, increased durability and wear • Ultra thin construction, perfect for wearing under another glove

VOSTOK 400

Extreme warmth liner glove available in various colours

Ultra thin
Can be worn under outer gloves to add warmth

One piece construction
Added comfort

Stretch fit
Fits snug to the skin for increased warmth and comfort

Elasticated wrist
Better fit and comfort with no cold draughts

2, 4, X

SIZES: XS -2XL | SKU:FG690C

With extensive trials and hand picked materials, including Kevlar, we have created one of the toughest gloves on the market for harsh cold environments. All this brings you a glove with amazing grip, durability, warmth and flexibility.

Additional Information

- Health & Safety compliant
- Aramid fibre reinforced fabric palm for extreme resistance to wear
- Available in 6 sizes
- Protective leather knuckle guard

3 QUICK FACTS

TO HELP YOU DECIDE IF THESE GLOVES WILL SUIT YOUR NEEDS

1

Extra Hard Wearing
The Kevlar palm and other features mean this glove will last much longer than the standard freezer glove

2

Grip & Dexterity
UG grips provide superior grip meaning they are a favourite for manual handling and more precise tasks

3

Warmth
Clo Insulation provides excellent warmth without compromising breathability

KEVLAR MITT 661

An extremely warm, comfortable and durable Mitten with replacable liner

SIZES: L | SKU:FG661

These three fingered mittens provide ultimate warmth, comfort and durability, whilst the third finger aids dexterity.

WATER-RESISTANT ICE MITT 660

Water-repellent leather palm to give you added protection

SIZES: M - XL | SKU: FG660

A freezer mitten with a water-repellent leather palm to give you added protection when working in chiller and freezer environments. Fantastic protection from windchill in driving applications

Additional Information

CE CERTIFIED Manufactured to European standards • Multiple sizes, giving you more options ensuring maximum comfort

LIMITED EDITION

AQUATIC 655C

A very hard wearing leather freezer glove with our UG Grip technology

Providing superior grip in cold environments

Clo Insulation - Superior Warmth & Breathability

Raw hide leather back
Added protection and reduced glove wear

Wing Thumb Design
No seams on major wear area increasing durability

Artery Guard
Added protection from cuts and damage

Extra Long Knitted Wrist
Added warmth and wrist protection

SIZES: M / XL | SKU:FG655C

Great Warmth and Durability - Incorporating our patented UG Technology™ and using Clo Insulation®, this Freezer glove is great for use in the coldstore and very cold environments.

Additional Information

CE CERTIFIED Manufactured to European standards • Water resistant Palm - Strong and repels water increasing the life of the glove.

AQUATIC 655

A warm glove with a water resistant palm

Dual Thickness Cow Leather
Stronger on high wear areas

Raw hide leather back
Added protection and reduced glove wear

EN388
2, 2, 3, 2

STOCKHOLM MITT 636

Designed for women, with a waterproof liner

SIZES: S - M | SKU: FG636

A slim & elegant insulated ladies mitten with anti-slip PU Palm & elasticated wrist. For extra warmth our Stockholm mitt makes a great combination when worn with our Vostock thermal gloves

Additional Information

Thinsulate Insulation - Ensures great heat retention while remaining thin and lightweight for optimal movement.

TUNDRA 635

A stylish ladies insulated glove - for use in the freezer or when out and about!

SIZES: XS -M | SKU: FG635

Inspired by Ski gloves, the Tundra combines style and warmth in a glove that works perfectly in the winter months to keep your hands warm and stylish

Additional Information

Hollowfibre insulation - traps more air, better warmth, no extra bulk

ULTRA PALM 630

A flexible Honeycomb PU grip palm glove

SIZES: S - XL | SKU: FG630

Super light-weight, warm and flexible with great grip in cold conditions due to the PU honeycomb grip construction.

Additional Information

Hollowfibre insulation - traps more air, better warmth, no extra bulk Multiple sizes - giving you a better fit for maximum comfort

MAXIM 625

A great style freezer mitten with quick finger access for dexterity

SIZES: L | SKU:FG625

The ultimate glove for warmth and flexibility. The mitten style glove keeps all your fingers warm while the fingerless under-glove keeps the mitten in place. For a great combination, wear with the FG440 liner glove.

Additional Information

Dual Thickness, stronger on high wear areas • CE CERTIFIED Manufactured to European standards

SHERPA 610

A very warm leather glove with amazing comfort.

SIZES: L | SKU: FG610

Sherpa fleece lined leather glove with an elasticated knitted wrist creating an extremely warm, flexible and durable freezer glove.

Additional Information

Elasticated Wrist, easily fits over jackets cuff reducing cold draughts • Sherpa fleece lining, traps more air to increase warmth

THE CLASSIC 605

A NEW design and features for an excellent all round freezer glove

SIZES: L | SKU:FG605

This is a high quality fleece lined, insulated freezer glove, specifically designed for those working in cold conditions. It provides comfort, warmth and flexibility for the wearer along with ultimate dexterity. Specially combined materials and the freezer glove's pre-curved design, combine to make an excellent all-round freezer glove.

Additional Information

CERTIFIED Manufactured to European standards

SUPER GRIP 6

A Terry lined dip coated glove, great for coldstore pickers

Elasticated wrist
Better fit and comfort
with no cold draughts

Nitrile dipped palm
Extra strong grip coating
for durability

Thermal lining
Warmth in cold
environments

SIZES: M - XL | SKU: FG6

Great grip and protection in a light-weight flexible and warm picking glove with full EU Health & safety compliance.
We reccomend you wear this glove with a liner glove such as th FG440.

Additional Information

Looped lining - for extra warmth and comfort • Non-allergic nitrile coating - no adverse reactions to glove wear

CHILLER GLOVES

A range of gloves perfect for chillers, warehouse and cold environments

NORTH ICE 430

Super thick and warm sherpa lined freezer glove

SIZES: L | SKU: FG430

A warm glove with Sherpa lining for superior comfort and warmth, keeping your hands protected in extremely cold conditions.

Additional Information

Cuff Binding • CE Rated - Manufactured to European standards • Sherpa fleece lining - traps more air to increase warmth

Elasticated Wrist, better fit and comfort with no draughts

FOOTWEAR

Protecting your feet in those tough environments.

EN20345 & EN86/686/EEC
Standards For Safety Footwear For Professional Use

FOOTWEAR CERTIFICATION EXPLAINED

EN20345 is the standard protection for professional safety footwear. There is a qualifying test which all safety footwear must pass and then other additional tests relating to additional safety aspects of the boot. These have been detailed on the adjoining page.

EN86/686/EEC Conformity is used for footwear that meets the EN20345 tests, but cannot be certified because the construction of the product is not recognised by the European testing standards agencies. These products have toecaps resistant to 200J, a water resistant upper and are tested for slip rating on a smooth steel plate with glycerol and have also been tested for their thermal resistant properties.

EN Standard
Specifies the basic standard which
all safety boots require. This
indicates the footwear has toecaps
resistant upto 200J

EN20345:2011

S3 CI SRA

Shield with boots
There is not an official shield icon
for footwear certification, however
we use this icon on the boot to
signify certified footwear

Additional Safety Standards met
Specifies any additional tests performed
and the rating which they receive

Optional categories (short codes)*
Rated using either SB, SB-P, S1, S1-P, S2, S3

Slip resistance**
Rated using Either SRA, SRB or SRC
(SRC being the top rating)

Insulation against the cold
Where the upper is tested for it's insulating properties.
The standard test temperature is -17°C

EXPLANATION OF MARKING CODES USED TO DEFINE LEVEL OF PROTECTION PROVIDED

EN ISO 20345:2011 - SB Toe protection tested with 200 J impact and 15 kN
compression force

OPTIONAL CATEGORIES OF PROTECTION

HRO	Heat resistant outsole compound tested at 300°C
P	Penetration resistant outsole tested at 1100 Newtons force
A	Electrical resistance between foot and ground of between 0.1 and 1000 Mega Ohms
C	Electrical resistance between foot and ground of less than 0.1 Mega Ohms §
CI	Insulation against cold
HI	Insulation against heat
E	Energy absorption of the seat region tested at 20 joules
WRU	Water resistant upper leather
I	Insulating footwear
AN	Ankle protection
WR	Water resistant footwear
CR	Cut resistant footwear
M	Metatarsal protection 100J impact energy

* SHORT CODES

SB:	Toe protection to 200J
SB-P:	As above with a penetration resistant sole
S1:	Upper from material other than all rubber or polymeric + Closed seat region + SB + A + E
S1-P:	As above with the addition of a penetration resistant sole
S2:	Has met all S1 Requirements with the addition of WRU (Waterresistant upper leather)
S3:	Has met all requirements for both S1 & S2 and also includes P (penetration resistant sole) and has cleated outsoles

** SLIP RESISTANCE

Footwear marked "SRA" has achieved a minimum CoF of 0.28 in the heel and 0.32 tested flat using a pressed clay tile floor surface with Sodium Lauryl Sulphate lubricant.
Footwear marked "SRB" has achieved a minimum CoF of 0.13 in the heel and 0.18 tested flat using a stainless steel floor surface with Glycerol lubricant.

Footwear marked "SRC" has met requirements of both SRA & SRB

NB: Footwear with these markings will offer some reduction to the risks of slipping; it will not remove the risk
all together. Extra care should be taken in highly slippery environments.

112% Warmer than standard freezer footwear *

ICE DIAMOND 501

Pull on freezer boot with removable liner for unrivalled warmth & comfort.

DUAL SIZES: 7/8 - 9/10 - 11/12 | SKU: ID501

Warm, Lightweight & Flexible. The Ice Diamond is proving to be the warmest, lightest and most versatile freezer footwear on the market. The fabric topped upper ensures maximum comfort and flexibility. Created after years of research to bring you this unique patent designed boot. Removable liner included.

Additional Information

- Pull-on Loops - Easy pull on/off with or without gloves
- Velcro Fabric Strap - to increase the fit of the boot
- SRB Slip rated
- CI tested - testing against the cold.

ICE DIAMOND 503

Lace up freezer boot with removable liner for unrivalled warmth & comfort.

DUAL SIZES: 7/8 - 9/10 - 11/12 | SKU: ID503

The leather upper & specially formulated PU sole, ensures great strength & durability, while adding support to the ankle and foot. Created after years of research to bring you this unique patent designed boot. Removable liner included.

Additional Information

- laces - to increase the fit of the boot
- SRB Slip rated
- CI tested - testing against the cold.

ICE DIAMOND LINER 502/504

Extra boot liner for the Ice Diamond ID501 & ID503

DUAL SIZES: 7/8 - 9/10 - 11/12 | SKU: ID502 / ID504

Providing cost effective maintenance and longevity of your Ice Diamond boot.

WHY USE A REMOVABLE LINER?

COLD FEET?

These liners offer superior warmth and unlike fur lined boots, can be replaced before the insulation compresses and degrades

HEALTHY FEET

Using the same boots all day contributes to a large build up of moisture which can cause health issues including fungi etc. Swapping to a fresh liner regularly throughout the day eliminates this issue.

COMFORT

Having a fresh, dry boot liner to slip into at the start of every shift will keep you warm and comfortable.

COMING SOON

ICE DIAMOND 2018 COLLECTION

An upgrade to the existing trusted Ice Diamond boots, still featuring our unique removable liner system

Specially designed and moulded sole
Deeper tread for increased grip on ice.
Unique composition that stays flexible when cold

Updated design
With 3 boot designs to suit your preference:
1. Fabric top with laces - Excellent flexibility
2. Velcro strap - Ease of use
3. Fully laced design - Maximum support

Removable liner
Thermo regulating, different warmth levels and thicknesses available.

SIZES: 3 - 13 | SKU: ID505 / ID506 / ID507

The all new Ice Diamond boots have been designed based on customer feedback with 3 boot styles and 3 inner liner styles. The liners will vary in warmth levels to suit every warehouse operatives' preference.

ADDITIONAL INFORMATION

BADGING

Your company name or logo, or even individual staff names, can be applied to the garments of your choice in a number of ways:

- Direct embroidery
- Heatseal printing
- Sewn on badges

Call us today for advice on the most suitable application for you.

WASHING INSTRUCTIONS

Please see individual labels in each product. For garments see Repairs and Cleaning below.

REPAIRS & CLEANING

If you are uncertain about cleaning your FlexiTog garments, or if you do not have the facilities, leave it to the professionals and prolong the life of your garments. We will collect, undertake all cleaning, carry out any minor repairs if necessary and deliver your garment back to you – a comprehensive, professional and hassle-free service.

How to order repairs and cleaning - Call us on 01692 400 300 to request a collection. We will supply you with a returns form and the necessary labelling for a carrier collection.

METHOD OF PAYMENT

Most major credit and debit cards are accepted with orders placed over the telephone or online. We will also welcome cheque with order payments via the post. Alternatively, a FlexiTog Credit Account can be set up, subject to status and approval, for hassle-free ordering and payment.

CARRIAGE PRICING

Free next day delivery on all orders over £150.00 before VAT. Next day delivery service for all orders under £150.00 before VAT: £6.95. Timed deliveries i.e. before 10.00, before noon, Saturday, etc. please ask for a quote at time of order.

The above carriage terms are applicable to UK mainland addresses only. For all other addresses please contact us.

TERMS & CONDITIONS

The full Flexitog Terms & Conditions are available on request and are also printed on the reverse of all invoices.
